DETAILED ACTION

Claim Objections

1. Claims 24-27 are objected to because of the following informalities: In claim 24, line 5, “brake” is misspelled. Appropriate correction is required.

Allowable Subject Matter

2. Claims 13-22 are allowed over the Prior Art of record.
3. Claims 24-27 contain allowable subject matter, however, are objected to, due to a misspelling as indicated above.
4. The following is a statement of reasons for the indication of allowable subject matter:
The primary reasons for the indication of allowable subject matter include a device and/or method for detecting the amount of splash water to which a brake pad is subjected to having the specific element and method step limitations recited in independent claims 13 and 24. None of the Prior Art contain these specific limitations, wherein a ‘test brake pad’ specifically has a hygroscopic friction lining which is able to absorb at least 5% water. None of the Prior Art teach the specific method step limitations set forth in independent claims 24.

Conclusion

5. This application is in condition for allowance except for the following formal matters:
Objection to independent claim 24 and its dependents.
